### Product overview: Fluke 9062 Motor and Phase Rotation Indicator

#### Unique phase rotation indicator with motor rotation ability

The unique Fluke 9062 provides rotary field and motor rotation indication with the benefits of contact-less detection. Purpose made for commercial and industrial environments, the Fluke 9062 provides rapid indication of 3 phase rotation using test leads supplied or can be used to determine motor rotation on synchronous and asynchronous 3 phase motors. The contact-less detection is ideal for use on motors where the shaft is not visible. The included test probes have a variable clamping range for safe contact, also in industrial sockets.
